SAND BLASTING

- ✓ Extremely silent.
- ✓ Suitable for simultaneous suction of dusts, liquids and solids.
- ✓ High level of filtration, filter efficiency detector, integrated manual filter cleaning system.

- ✓ Heavy Duty three phase industrial vacuum cleaner, suitable for mobile services or as fixed, centralized solution.
- ✓ Maintenance free motor ideal for continuous duty.
- ✓ Large capacity, detachable container with forklift intakes.

SUCTION UNIT

Suction is developed by a powerful side channel blower with direct coupling between the fan and the motor and no transmission system, making it completely maintenance free and fit for continuous duty.

A pressure relief valve protects the motor from overheating and ensures the entry of cooling air for the motor.

FILTER UNIT

The filter is cleaned mechanically by means of a manual filter shaking lever which shakes the filter vertically, ensuring safe and effective cleaning. This contributes to maintain high suction efficiency and avoids the spreading of dust in the environment.

COLLECTION UNIT

The steel container has an easily detachable container for quick disposal of suctioned material.

OPTIONALS

- ✓ Nomex heat resistant filter up to 250°
- ✓ Automatic filter cleaning system with pneumatic cylinder shaker with timer and push button
- ✓ Automatic pneumatic filter cleaning system, 4 antistatic class M cartridges, surface 106.000cm²
- ✓ LOC/REM remote control
- ✓ Lifting bracket and ring for container tipping
- ✓ Abrasion proof plate for filter chamber
- ✓ Safety cartridge Hepa H14 52.000cm²
- ✓ Safety cartridge Hepa H14 103.000cm²
