

FILTERING SEPARATORS

Silofilter 200 PN Z22 - Atex filtering silos with pneumatic cleaning system - ATEX EXPLOSION PROOF

CEMENT WORKS AND CONSTRUCTION INDUSTRY

CHEMICAL-PHARMACEUTICALS

STEELWORKS AND FABRICATORIES

SAND BLASTING

✓ With forklift intakes for easy transport.

✓ Filtering Silos connected to a powerful CVAC unit, designed to suction large quantities of material and discharge directly into big-bag or collection barrels.

FILTER UNIT

Filter Type	Cartridge	
Surface - Diameter	cm ² -mm	106.000 - 150
Material - Efficiency	IEC 60335-2-69	Polyester - ANT M
Cleaning system	Automatic PN	

COLLECTION UNIT

Discharge system	Big-bag system	
Capacity	lt.	200

VOLUME

Dimensions	cm	143x99x375h
Weight	kg	330

FILTER UNIT

The antistatic, polyester cartridge filter placed inside the filter chamber has a large filtration surface and high resistance to dust penetration and clogging.

COLLECTION UNIT

The vacuum unit is equipped with a safe bagging system to ensure safe disposal of suctioned dust.

OPTIONALS

- ✓ Class M Antistatic PTFE Filter
